

REQUIREMENTS FOR OCCUPATIONAL HEALTH PROGRAM CLEARANCE

The Employee Health Office in Environmental Health and Safety is responsible for administering the Occupational Health Program for researchers. Submission of the Occupational Health Program Questionnaire is the first step for enrolling in the program. Completing the medical requirements as detailed below is required to be officially enrolled into the program and cleared for work. The OHP Questionnaire must be updated & completed annually for Employee Health review. Enrollment requirements detailed below are based on individual risk assessment. Contact the Employee Health Office at ohp@miami.edu for more information.
